AIMS AND OBJECTIVES

This ExpertFORUM will provide a thorough update on current trends in product information and labelling. Authority and industry experts will talk about e-labelling, digitalisation and the identification of medicinal products (IDMP), and give you practical examples of labelling content management and compliance.

A discussion on the accessibility of product information to patients, including tips on how to optimise your labelling management, will round off the event.

TIME SCHEDULE

Tuesday, 8 December 2020
from 08:30 registration
from 09:00 - 17:00 conference

Wednesday, 9 December 2020
from 09:00 - 16:00 conference

WHO SHOULD ATTEND

This conference addresses the needs of individuals involved in product information in regulatory affairs, medical affairs and pharmacovigilance.

It will provide useful updates on the relevant trends in digitalisation, compliance and much more. A working knowledge of product information is a prerequisite.

YOUR SAFETY AND THE OPTION TO PARTICIPATE ONLINE

For the first time, participation in the ExpertFORUM Labelling conference will be both attendance-based and online. On site, we will ensure that the necessary safety precautions are met and use significantly larger rooms and the latest hygiene measures.At the same time, a professional streaming service provider is on board to make the conference accessible from your own workplace. Direct interaction with the speakers in the conference room will also be possible.
