Aims and objectives

HTA/value assessment is an essential tool in many national European healthcare systems.

This conference provides thorough insights into the national procedures in Germany, Spain, the UK and Ireland. It also provides a sound update on European harmonisation efforts in terms of harmonised early advice or joint HTAs.

Early access availability, pricing and pricing strategies will round off the conference, enabling you to optimise your market access strategy for the various European markets.

Who should attend?

This conference addresses the needs of employees in the pharmaceutical industry responsible for market acces activities in the various national European markets.

Those involved in value-assessment preparation and pricing activities will benefit particularly from this conference.

Your benefits

- Experts from various national HTA bodies discuss the current challenges and perspectives
- Focus on European harmonisation efforts and national peculiarities
- First-hand information on Joint Action 3 proceedings

Quality guaranted

IMI (Innovative Medicines Initiative) defined quality criteria for professional training and education. We follow these criteria and, as a signatory, we are an active partner in further developing and optimising the quality standards.

An aggregate evaluation of participants' feedback on all FORUM's healthcare training courses (evaluation period from 10.2015 - 09.2016) produced a result of 1.7 (based on a school grading system of 1-6).
